Project Objectives	<p>The concept of EU-CONEXUS ENABLES is built upon the strong foundation of our Alliance within the Joint Research Area as an excellent network for cooperation between the partners with several points of gravity. The project is devoted to promote scientific and academic cooperation between the members of the alliance at the same time with effective implementation of the ERA policy agenda's main objectives. Using as thematical background 4 major challenges, the project is dedicated to achieve specific objectives that are aligned with almost all of the ERA goals. The scope of the EU-CONEXUS ENABLES project is to create the framework of an innovative ecosystem promoting sustainable synergies between the alliance and its partners, such as fellow municipalities and other stakeholders, in order to develop long-term solutions for Smart Urban Coastal Sustainability challenges based on the Digital Twin approach. The project is focused on, on the one hand, raising excellence in value creation through deeper and geographically inclusive cooperation and, on the other hand, on the societal-based topics and needs coming from our supporting ecosystems of stakeholders.</p>
