

## Research Project Fact Sheet

<b>Title of Project</b>	<b>Provision of Technical Support Services for the project "Promoting Energy Efficiency in Public Buildings of the Balkan Mediterranean Territory"</b>
<b>Project Acronym</b>	PRO-ENERGY
<b>Funding Program</b>	INTERREG V-B
<b>Project Identifier</b>	BALKAN MED 2014 - 2020
<b>Total Budget</b>	1052500 €
<b>Starting – Ending Date</b>	04/2021-03/2022
<b>Consortium</b>	<ol style="list-style-type: none"> <li>1. Region of Epirus - Regional Unit of Thesprotia (GR)</li> <li>2. Development Agency of Evia SA (GR)</li> <li>3. Cyprus Energy Agency (CY)</li> <li>4. Department of Electrical and Mechanical Services – Ministry of Transport, Communications and Works (CY)</li> <li>5. Regional Development Agency with Business Support Centre for Small and Medium-sized Enterprises (BG)</li> <li>6. Ministry of Infrastructure and Energy (AL)</li> <li>7. Frederick University (subcontractor of EMS) (CY)</li> </ol>
<b>Project Objectives</b>	<p><b>General:</b>  The common challenge of PRO-ENERGY is to improve energy efficiency of public buildings (municipal/provincial/regional buildings, schools, universities, health centres, hospitals, museums, sports facilities etc.). This is a common problem faced by the territories participating in the project characterized by old facilities, outdated/degraded building facades, materials &amp; equipment (insulation, electrical appliances, cooling/heating systems etc.), low energy consciousness &amp; awareness, lack of skilled civil servants, etc. all leading to high energy consumption &amp; CO2 emissions. Combined with the fact that participating territories are energy import dependent it is more than evident that there is room for improvements in energy consumption &amp; more efficient use of energy. More importantly, the exemplary role of the public sector should be promoted by increasing energy savings in public buildings. PRO-ENERGY aims to address these issues by developing &amp; implementing a Joint Strategy &amp; Action</p>
<b>Work Packages</b>	<p>WP1 Project Management &amp; Coordination  WP2 Project Communication &amp; Dissemination  WP3 Joint Regional Analysis, Strategy and Framework  WP4 Capacity Building for Energy Managers  WP5 Pilot Actions &amp; Sustainability  WP6 EUSEW Participation</p>
